

## **ECVCN Resident Position in Maisons-Alfort (France) (Small Animal Nutrition)**

### **Qualifications:**

Applicants must have completed either a **rotating internship** or gained **relevant clinical experience** in small animal practice.

A strong **interest in clinical nutrition** is essential. Applicants should demonstrate **motivation to work as part of a multidisciplinary clinical team**, excellent interpersonal skills, and enthusiasm for patient care and client communication.

At least a **basic knowledge of the French language** or a strong willingness to learn French is required, to ensure effective communication with clients and staff.

The resident will be actively involved in all aspects of the clinical nutrition service, including **case management, research, and education**. The position involves developing individualized dietary plans, participating in clinical rotations, contributing to student training, and ongoing research in veterinary nutrition.

### **Start date:**

January 2026

### **Funding:**

The position is funded for 3 years
